## **WORSHIP TIME SURVEY**

As part of our sharing a pastor, we need to look at different possible worship times for Douglas and gather data about how these worship times would affect different members of our church family. Aldersgate's congregation very generously volunteered to take a 9 am worship time for the first three months of 2019 to give Douglas time to make the transition to a new pastor and to gather data, which is what we are doing now.

We value everyone here at Douglas, and whatever eventually comes to pass, whether it is a permanent change in worship time or perhaps a rotating one, we want to make sure everyone has a chance to have their voices heard.

Please take a minute to fill out the survey. If the multiple-choice format does not accurately reflect your thoughts, feel free to write more information down. Also, if you have your own ideas that are not represented on the survey, please feel free to add them.

It is important that we know how many people are in your family, as our children are important members of our congregation and we want to make sure they are represented through their parents.

If you are not comfortable adding your name, do not feel that you need to, but also feel free to identify yourself. This could be helpful especially if finding reliable transportation at a given time would be a burden to you.

You may return the survey via email: [dcumc@gci.net](mailto:dcumc@gci.net), via the US Postal Service, or bring it to church and put it in the survey basket downstairs in Grant Hall on the piano.

Thank you and blessings; we look forward to your input!
